AG Introduction Juvenile Crime

Next I would like you to judge two cases involving juvenile offenders in which juvenile offender is guilty.

You have five sentencing alternatives. You could send them to a punk prison (which is similar to an adult prison), to a training school, to a residential group home for youth, to a day education program for youth in trouble, or you could impose strict probation plus work with the juvenile's parents.

Keep in mind that there are limited spaces available in punk prisons, and that both the punk prisons and training schools cost somewhat more per day than the other programs.

Cba1 Custody - Version II

I'd like to ask you about how child custody should be handled in divorce situations where both parents are fit to provide care for the child. Of the following two options, which do you think is the best option:

Custody should be given to the parent who has been in the primary parental role, (the parent who is responsible for the day to day care of the child).

-or-

Custody should be equally shared by the father and mother.
