A7a   Punish vs Rehabiliation

        Some people would say that punishing individuals is not the
        solution to controlling crime, but that prisons should provide
        education, job training, and treatment for drug or alcohol
        problems so that people will be able to make a living in legal ways.

        Do you think providing education, job training, and

B1   Current Prison Funding

          As you may know, the state of Michigan is responsible for a lot of

          If you learned that 15.1% (15 cents out of every $1.00) of
